## ABOUT ME

From setting out to publish a book at the age of fifteen to crafting product descriptions for hundreds of items a week, I've always had a fascination with the written word. I've constantly strived and continue to seek out new and creative ways to tell stories that matter to people and the communities they live in. There are so many vital and intriguing stories to tell out in the world and I know I'm here to help tell and get them told in the best way possible.
